SUMMARY

Prisoners for disabled persons, that is what good it is possible to do from behind iron bars

The article take attempt of the presentation of the information, which was made gathered mainly from trade sides of the Prison Service. In spite of the fact that this information are widely available, still they are showing it oneself to be a novelty for many of us. In prisons, quite a lot is also happening for disabled persons. Unfortunately, little we hear about them. Sometimes inhabitants of the town, in which the penitentiary is located know about them, and sometimes even they don't have notions about conducted action under their nose. It will be a success, when at least a few persons after reading this article become interested in this action and causes for popularizing them, and maybe even joins in action.
